POTERVILLE AFTER THIRD WIN AT FAIR

POTERVILLE, Aug. 7 — Porterville will be after its third consecutive win in the large community exhibit section of the Tulare county fair, September 16-21, with the chamber of commerce fair committee meeting last night to make plans for the booth.

Working now on the committee are: Chester Gilbert, in charge of forage crops entries; Tommy Thompson, apples; O. K. Wright, grapes; Walt Whalen, olives; Ted Cornell, vegetables; Mark Sharp, vine crops; Gordon Stuker, deciduous fruits; Bill Richardson, dates, and John Walker, citrus.

Working on theme, booth construction and display are: Thompson, Richardson, Alex Mock, Roland Crosiar, Jim Ellis, Lucille Fittro; Vaudine Phipps and Max Young.

Allan Coates, manager of the Porterville chamber of commerce, states that other members will be added to the committee. He states that since Porterville has won first-place honors at the county fair for the past two years, every large community will be "gunning" for the locals this year.

The 1958 Fair premium book states that in the judging of community exhibits, judges shall give preference to booths using natural materials in decorations and background.

SUCCESS DAM PROJECT AREA SHOWN ON MAP

POTERVILLE, Aug. 7 — Map at right shows the outer boundary of the area that the U.S. Army engineers now intend to use in connection with the Success dam and reservoir project, however, it is possible that some additional property may be acquired in order to provide access to the water area.

This map is numbered to show property, as listed by the engineers, although there have been some changes since map information was compiled. While this map does not show the reservoir outline, we hope it gives an idea of just what area the total project will cover.

To figure the shoreline of the maximum Success pool, follow the 650-foot contour on a contour map.

Heavy line at the bottom locates Success dam across the Tule river; heavy line, top left, is the Frazier dyke.

SLIM BARNARD'S SIERRA PACK TRIP STORY IN AUGUST 24 L. A. EXAMINER

SPRINGVILLE, Aug. 7 — Slim Barnard, outdoor and auto editor of the Los Angeles Examiner, will tell of his recent pack trip into the high Sierra in the August 24, Sunday edition of the Examiner.

The story will appear as one of his famous weekly travelogues that he has been writing for the past 17 years. His Sierra trip was sponsored by the Springville chamber of commerce.

AUDIT REPORT SHOWS FAIR NOW DEBT-FREE WITH MONEY IN BANK AFTER GOOD YEAR

POTERVILLE, Aug. 7 — Porterville's Junior Livestock Show and Community Fair is debt-free and has money in the bank according to official audit report on the 1958 fair that was released this week by Alfred W. Browning, accountant.

The report shows that the fair that was presented last May had total receipts of \$13,143.21; disbursements ran \$13,281.17, however, included in the latter figure was a payment of \$1,000 to retire final indebtedness against the fair.

And the audit report shows a bank balance of \$833.62, which puts the Porterville fair completely in the black for the first time since 1950, when the fair lost some \$6,000.

Since the financial disaster of 1950, fair board directors, with assistance from many individuals and business firms of the community, have developed a permanent fair location in connection with the Porterville municipal ball park; have accumulated facilities valued at more than \$50,000 and have now retired final indebtedness against the fair.

The Porterville fair operates without aid of state funds and has been developed as California's largest, completely community-supported livestock show and fair.

Board Chairman A. K. Hodgson points out that already directors are looking toward the 1959 fair — and that there will be problems to meet, the most important of which will be repair, or replacing the roof on the main exhibit building.

Other maintenance will be necessary also, while total cost to produce the Porterville fair has been rising each year for the past several years.

Hodgson states that while directors reached a major goal in getting the fair out of debt this year, continued improvement and expansion will be necessary in future years to keep the fair growing with the community.

Success Reservoir To Have Six Miles Of Shoreline Around Minimum Pool; Thirty Miles Of Shoreline When Full

POTERVILLE, Aug. 7 — Success reservoir, following completion of Success dam, will have six miles of shoreline around its minimum pool; 30 miles of shoreline around the maximum storage area, it was stated by William A. Doyle, hydraulic engineer in the Sacramento office of the U.S. Army engineers in a talk before the Porterville Rotary club, Tuesday.

Shown on the map below is the outside boundary line of the property that the engineers now plan to use in connection with the Success project; also property owners are listed with the map.

Maximum pool, that will be about three miles in length, and containing 2,400 acres, will follow the 650 foot contour; minimum

pool, a mile and one-half in length, with an area of 425 acres, will follow the 587 foot contour.

Actually, the engineers now anticipate using about 4,300 acres in connection with the project, either by ownership or by easement.

The minimum pool will extend about to the present location of Bartlett park; the maximum pool will extend up the south fork of the Tule river, will spread out along the middle fork in the area below the Harold Weisenberger ranch home, inundate old highway 190 in that area; reach almost to the Louis Gill home, send a small arm up to the 40-foot-high, 7,650-foot-long Frazier dyke.

THE FAIR REACHES ONE GOAL

Audit report for the 1958 Porterville Fair has special significance, for this report shows that the Fair is out of debt, has money in the bank, and is operating on the black side of the ledger.

This is significant because back in 1950 the Fair took a shellacking to the tune of \$6,000. That was the year the show was held at the Rocky hill arena; it was also the year that directors under-estimated expenses and over-estimated income, something that is pretty hard to get away with in any type of enterprise.

With a debt of \$6,000 hanging over them, members of the fair Board debated long and seriously about what to do: Sell the assets that the Fair had, pay off the remaining balance themselves and get out of the Fair business, or take another try at it.

Decision to stay in business — at least for one more year — was reached, arrangements were completed to hold the 1951 fair in the Porterville municipal ball park, and directors decided to drop amateur entertainment, replacing it with the best professional outdoor show that could be obtained.

New location, new type of entertainment, new approach to the fair as a business proposition paid off. After the 1951 Fair, directors had money in the bank, but still the heavy debt.

But there was more enthusiasm and there was no doubt now but that the Fair would be continued. Directors carried the debt for the first year, then Mrs. Violet Carpenter loaned the Fair board \$5,000, without interest; and a program was started to construct permanent facilities as they are now established on the fair grounds.

And what a project that was. Remember? Everyone in town, and in the country too, pitched in and helped. An estimated 5,000 man-hours of donated labor went into the main exhibit building; materials were provided at cost; when the pressure was on, 50 or 75 business men and farmers could be seen in the evening driving nails, or sawing lumber, or doing other work.

Each year facilities were improved — some \$50,000 went into the fair since it was moved onto city property, in addition to innumerable hours of donated work.

As a result, Porterville now has a livestock show and fair that is debt-free, that is the finest type of agricultural community event, that stands on its own merits without subsidy from the State of California.

Certainly Porterville Fair facilities are not the flashiest in the state, but just as certainly, the Porterville Fair has something that few, if any, state subsidized Fairs have — community acceptance and pride that makes the Porterville Fair "our Fair."

So much for the past. It's the future now — a future in which the Porterville Fair must continue to improve and to grow as the southeastern Tulare county community grows. And after its hectic past, there is nothing left that the Fair need fear in the future, as long as it remains a truly community event.

Mr. Dairymen . . .

Are you feeding ALBERS DAIRY MIXES? If not . . . you're feeding too much!

Our records prove the average dairy herd uses up to $\frac{1}{3}$ less and gets the same production as those using other dairy mixes.

ALBERS DAIRY FEEDS are tested again and again at Carnation Research Farms in the State of Washington before being placed on the feed market. When you buy Albers Dairy Feeds you know you are buying the RESULTS of these tests, which have been conducted at ALBERS' EXPENSE. We do not experiment on your herd AT YOUR EXPENSE!

Come in and let us quote prices on our Milk Flo — (16% or 20% protein) . . . or Molas-O-Meal. You will find our prices are in line with any other quality feed.

Sincerely,

BOB DOROUGH

Success Reservoir

(Continued from Page 1)
that will lie just east of the Edison company power station.

Pattern of the maximum pool will be irregular on the upper end, extending back into the foothill valleys and leaving the rocky mountain just west of the Bartlett park almost as an island.

Height of Success dam will be 148 feet; elevation of the dam at the top will be 691.5 feet; width at the crest will be 22.5 feet; base of the dam will be about 1,000 feet in width; freeboard above the spillway on the west side of the dam will be 4.7 feet and total volume of embankment will be 4,900,000 square yards.

Frazier dyke, with 660,000 square yards of embankment, is being built to protect against an exceptionally heavy flow of water in the Tule that might, under unusual circumstances, back the water up higher than the natural high water line.

In his Rotary club talk, Doyle said that the spillway that will be placed in the saddle that lies just west of the dam site is to protect the dam in case of exceptionally high water, and to keep water from going over the top of the dam.

"Earthfill dams are one of the safest type of dam in the world," Doyle said, "as long as water does not go over the top."

Estimated cost of the dam and reservoir project is now \$15,300,000; with first bids to be opened September 11, the dam and reservoir may be finished by the summer of 1961, provided congress continues to appropriate sufficient funds, Doyle stated.

Concerning purpose of the dam, Doyle said that flood control is the major objective; irrigation benefits second; recreation, as can be provided, third.

He said the army engineers are now preparing a master plan for recreation development of the area and that the county of Tulare has indicated an interest in taking over the responsibility of recreation — either as the operating agent of facilities that may be placed on the reservoir, or as the lessor.

(Supervisor Rodgers L. Moore has stated that consideration is being given to the establishing of a county park, to replace Bartlett park, in the river area just below the dam site.)

In commenting on recreation potential of the Success project, Doyle listed disadvantages as: Fluctuation of the shoreline will be great; minimum pool, that will have a maximum depth of 40 feet and an average depth of 12 feet, will not be large, compared to other reservoirs in the valley; the reservoir is not in a scenic location, nor is it at a high enough elevation to offer cool summer weather; during some years of light rain and snowfall, the Tule will do little more than "flow through the reservoir", and there may be nothing more than a minimum pool in the reservoir.

But Doyle listed as advantages these points: The reservoir will be close to the valley, and easily reached; it has 65,000 people within 25 miles and 265,000 within 50 miles; with boating the popular sport that it is, use will be made of the Success reservoir for this purpose; warm water fish-

**Jack Griggs
BUTANE**

Furnaces
Water Heaters
2-WAY RADIO SERVICE
1030 E. Date SU 4-4715

ing can be maintained; shores of the reservoir have a gentle slope, consequently, the water can be easily reached.

He said that army engineer policy is to make flood control facilities available for public recreation — first the "day type", such as boating, fishing, picnicking; he said access roads to the water will be provided and that any federal land not used in operation of the project will be available for other use — recreation, livestock grazing, or possibly other farm operations; boat launching and docking facilities will be provided; then, if there is a demand, camp grounds and organizational camp sites may be developed.

Although the county, or other public agency, may take over development of recreation on the reservoir, and even privately operated concessions may be located on the reservoir, the army engineers will continue to review and approve all development plans on the reservoir, Doyle said.

On a basis of public use of Pine Flat and Isabella, Doyle said that the engineers estimate 150,000 visitors days per year at Success, probably peaked from March through July.

"And we are usually low on our estimates", he said.

In answer to questions, Doyle said that the reservoir area will be cleared; that an effort will be made named vice chairman.

made to avoid any unsightly spots resulting from such things as borrow pits; that it might take 50 years for silt to fill the inactive, minimum pool back of the dam; that in only about 15 per cent of the years will the reservoir fill; that construction contract will be let on a "continuing basis", with about \$2 1/2 million to be spent in the current fiscal year; that completion in the summer of 1961 hinges on congress making funds available so that work can be conducted at maximum speed.

He said that the army engineers acquire no water rights in connection with the project; storage space will be made available for irrigation interests owning Tule river water rights; that operation of the dam will lengthen the period of flow in the Tule river; that there is little likelihood that the engineers will offer a minimum pool larger than 5,000 acre feet, although, through water storage, there may be more than this amount of water back of the dam much of the time, particularly during the period of spring runoff.

BAKER RECOMMENDED FOR APPOINTMENT AS POSTMASTER IN PORTERVILLE OFFICE

POTERVILLE, Aug. 7 — John W. Baker was recommended to receive the appointment of Porterville postmaster by a unanimous vote of the Tulare County Republican Central committee, meeting in Visalia July 31, with the committee chairman, Bill Rodgers, of Porterville, authorized to forward the recommendation to United States Senator William F. Knowland for the necessary action in Washington, D. C.

Baker, who has served as assistant postmaster for 13 years, will succeed the late Chester P. Dunning.

Born in Springville in 1905, Baker is the son of Mrs. W. A. Baker and the late Will A. Baker, who was the first city carrier in the Porterville postoffice. He attended Porterville elementary schools and is a graduate of Porterville high school; he has been a career postal employee since 1936, and had worked as a temporary clerk or carrier at various times back as far as 1928.

Baker is a member of the National Association of Postal Supervisors, and has served as president of the Southern San Joaquin Valley unit. Under a training and development program instituted by Postmaster General Arthur E. Summerfield, he attended seminars in San Francisco, and completed courses in postal management at Fresno and at the College of the Sequoias in Visalia.

He is a member of, and a past master of the Porterville Masonic Lodge; a member of the Eastern Star, and a member of the First Congregational church of Porterville, where he has served as president of the board of trustees.

In 1933, Baker married the former Mildred Saul; they have two children, Jo Ann (Mrs. Walter Wilcox of Bakersfield) and Judy, who will enter Porterville college this fall. The Bakers have also a grandson and a granddaughter.

In announcing the recommendation, Rodgers said, "Members of the Republican committee feel that Baker is exceptionally well qualified to fill the position of postmaster. He has the exper-

ience, the special training, and the community background that make him an excellent choice for the appointment."

Supervisors Approve New Sierra Route

VISALIA, Aug. 7 — Tulare County board of supervisors have approved resolutions favoring the new, proposed location of the trans-Sierra extension of highway 190 that places the highway south of its present map location and that would extend it through the Beach and Kennedy meadows country, from Quaking Aspen into Owens valley.

Association For Deaf To Meet

POTERVILLE, Aug. 7 — California Association of the Deaf will open a weekend convention, August 28, at the Californian hotel in Fresno, with from 400 to 500 persons expected to attend.

General chairman of the convention is Bill Hoffman, of Porterville, who states that a varied and informative program has been lined up.

By SLIM WASHBURN
SPRINGVILLE

Fishing on the lower stretches of the Tule river slowing down some. Good fishing in the planted areas around Camp Wishon, Camp Nelson, Cedar Slope and Peppermint creek. North fork, poor. Good morning and evening fly fishing in the main river.

Big Kern, reached from the pack stations at Quaking Aspen, good; Little Kern, good. Tributaries slowing.

Maggie, Twin and Blossom lakes, reached from the Balch

park pack station, all good. Summit lake, poor. Small streams, slowing.

Average annual water charge in a cross section of California Irrigation districts in 1955 was \$7.79 per acre.

PORTERVILLE — John Barbero, who has resided at Porterville a number of years and is a pioneer Californian and an old soldier, is now staying at the soldiers' home near Santa Monica.

Wilko Mentz has been appointed a director of the Porterville board of trade, vice S. J. R. Gilbert, who has moved to Visalia.

C. W. Preston, of Porterville, has been awarded a contract to build a two-story residence for A. R. Carney on his citrus orchard

near Exeter. The building will cost in the neighborhood of \$5,000.

In the case of Mike Griffin, tried in Porterville on the charge of fraudulently diverting water from the South Tule Independent Ditch company's ditch, the jury failed to agree. The case will be tried again August 23rd.

John Cutler and wife, W. W. Wright and wife and Ozzie Loyd and wife left Porterville Sunday morning for Kern river on a hunting and fishing expedition.

**HI-4-H CAMP
ATTENDED BY
LOCAL MEMBERS**

VISALIA, Aug. 7 — Twenty-seven Tulare county HI-4-H club members are attending a six-county camp being held this week at Camp Bruin, with the following from southern Tulare county clubs.

Roger Andreas, Wesley Honbo and Christy Peterson, Columbine; Crystal Carlson, Judy Hamilton, Diane Schlitz and Shirley Schlitz, Richgrove; Judy Larson and Alvin Ramirez, Success Valley; Patti Taylor, Tipton; Eric Gunderson, Patricia Holley, Gary Howell and Viola Meier, Vandalia.

**BENEFITS NEARLY
\$5,000,000 IN
TULARE COUNTY**

VISALIA, Aug. 7 — Old-age, survivors, and disability insurance benefits are being paid in Tulare county at the rate of \$4,747,956 a year to 8,127 beneficiaries, according to Donald W. Chapin, manager of the Visalia social security district office.

"This is an increase of about 40% over last year," Mr. Chapin said. Payments to a retired worker average about \$65 per month. The average for a widow with two young children is \$145. The maximum payment for a retired couple is \$162.80 a month, and the maximum for a family is \$200.

"There were several reasons for the increase in benefits over last year," Mr. Chapin said. One was the payment of benefits to people who were brought under the law for the first time in recent years — self-employed farmers, for example. Other reasons for the increase were the reduction in the retirement age to 62 for women and the starting of disability insurance benefits to disabled people 50 or over.

State acreage planted for processing tomatoes is estimated at 145,000 acres, 12 per cent over last year and 35 per cent over the 10-year average.

**Peach Price
Set At \$47.50**

MODESTO, Aug. 7 — The California Freestone Peach association announced this week, that the price of \$47.50 per ton roadside had been agreed to with the canners and freezers. There had been too much non-association fruit sold at \$47.50 to permit the Board of Directors in the Association to establish a higher price for Regular and Fay Elberta peaches, it is stated.

**FARM EMPLOYMENT
AT 139,000 WORKERS**
FRESNO, Aug. 7—Employment in valley agriculture decreased somewhat in the past week with 139,000 workers now employed. This compares to 135,000 at this time last year.

"I've just moved to Porterville," Mr. Bridwell said, "and my neighbor told me that your office is the right place to come for insurance."

"That's good," I replied.
"How can we help you?"

"Before I left Eureka," Mr. Bridwell said, "my agent there just about had me talked into a Homeowner's Policy. He showed me how much extra coverage I'd get. Now, my home here is covered with just fire insurance and extended coverage. If I changed to a Homeowner's, would I be penalized any? And would I have to cancel the present policy?"

"No," I said, "probably 9 out of 10 of the Homeowner's Policies we issue involve some kind of insurance in force which has to be incorporated into the package. That can be done easily, and involves no penalty to you."

"Good," he said. "How much would the new policy cost?"

"Let's figure it out," I said, and reached for a comparison chart. In a few minutes we had filled in the exact amounts.

Mr. Bridwell studied it for a moment. "It looks like a lot of extra insurance for the additional cost. I'm sold for sure now. Put it in force for me."

May we make a COMPARISON CHART on our Homeowner's Policy for YOU?

Almost a quarter of a million fingerling trout were dropped into 77 high elevation lakes in Fresno, Tulare, Mono, Mariposa, Madera and Tuolumne counties late last week by the fish and game plane and pilot. Some of the fingerlings, especially the eastern brook, were practically catchable size fish and all were taken from the San Joaquin hatchery at Friant.

Total number of trout stocked by species was rainbow 106,350, eastern brook 109,930 and kokanee salmon 29,400.

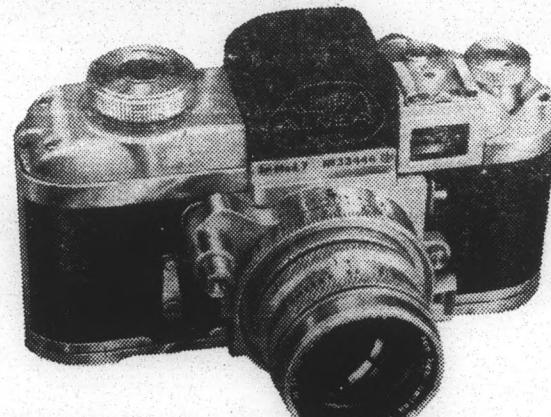

California's dove season will open September 1 (Monday) and continue for the month with a bag and possession limit of ten birds. The bag may include white wing, Chinese spotted, ringed turtle-doves or the mourning doves but no more than ten in combination.

Shooting hours will be the same as last year, one half hour before sunrise to sunset.

The mourning dove, being migratory, is under the jurisdiction of the federal government which

Bank Announces Loan Plan For College Students

SAN FRANCISCO, August 7 — Action by Bank of America has provided a new method of meeting college education costs faced by California parents.

President S. Clark Beise announced the bank is now offering insured educational loans to cover tuition, board and room, books and fees paid by the college student.

Called the Studyplan program, it makes available to any California resident loans up to \$10,000 to pay the costs of college enrollment. Funds are advanced by the bank to the borrower at the beginning of each semester with a monthly repayment schedule retiring the loan by the time the course of study is completed.

Offered California a 50 day season between September 1 and January 15 but the state commission decided to take only the same as the year previous.

Neighboring Arizona, however, considered to have the best dove hunting in the nation, decided upon a split season from September 1 through 28 and December 13 through January 3.

Bag and possession limit there will be ten mourning doves plus 25 white wing.

Arizona's non resident hunting license cost \$20 but the same license may be used for other hunting, in most cases with extra tags. For instance, the javelina season this year will be from February 6 through 15 with the special tag costing \$1 but the non resident hunting license will be required this year for the first time.

The state game farm at Fresno will release about 10,000 mature pheasants this year of which approximately 7,500 will be cock birds. Most of the pheasants will be liberated on cooperative hunting areas, waterfowl management lands or other suitable areas open to public hunting.

In addition to this, clubs will liberate additional birds to the following extent: Oakdale and Madera 400 each; Merced 2,000; Los Banos 2,500; Tulare county 4,500, and Kernville 1,100.

It is reported that the Bakersfield sportsmen may again purchase pheasants from commercial

sources and release them for members only.

FIRE HAZARD, NAMES, GENERAL TALK IN THE EAST PORTERVILLE DISTRICT

By George A. Heintz

A cigarette butt tossed out a car window along Clatte Drive into the tinder dry grass would create quite a prairie fire — with humidity in the twenties and temperatures hovering around a hundred degrees, the fire hazard is obvious — wonder why the country road crews don't control burn this roadside incendiary bomb before our efficient fire fighters have to sweat out another fire likened to the Rocky Hill burn and the 600 blackened acres above the old C. H. Weed orange grove?

I heard: the Popovich poultry ranch at the corner of Leggett and Isham is for sale — some late sleepers over on Dixie Drive should snap this up, or haven't you ever heard the din a couple of thousand cackling hens can make in the quite early hours?

Girls are odd: that is girls' first names noted in new E. Porterville directory: Albana, Ena, Euma, Bernita, Golda, Leva, Nerva, Shreda, Ronda, Vonita, Troyce, Zona and Zenith.

Did ya know?: East Date was considered for that new 20 lane bowling alley; operators put thumbs down when they couldn't

sources and release them for members only.

find enough parking space — the odds are 5 to 3 that Green Construction Co. will get a piece of the Success Dam bid — the hot rodders are already trying out the new freeway south of the Tule even though it is not open to through traffic.

Busy spots: the Sequoia Rock and Gravel enterprise on the Tule — Mt. Whitney Lumber Co. on the Reservation — Pat's Barber Shop next to Everett Vaughn's on a Saturday afternoon — Holbrook's melon patch across from Doyle school after sundown.

And then: A Mrs. A. Quaintance is listed in Directory as a bookkeeper for Tule River Citrus Association.

REPUBLICANS WIN AND LOSE IN PRIMARY;
DITTO FOR THE DEMOCRATS AS OFFICIAL FIGURES COME DOWN FROM SEC. OF STATE

PORTERVILLE, Aug. 7 — Republicans won a few and lost a few in Tulare county in the June primary election, and the same can be said for the Democrats, on a basis of official election figures recently released by Frank Jordan, secretary of state.

With 70.93 percent of the registered Republicans, and 64.75 percent of registered Democrats going to the polls in Tulare county, (state average was 65.68 percent of registered voters actually voting), Republicans gained a total vote margin for six major offices; Democrats gained a total vote margin for five.

Only winner in the primary was Democrat Congressman Harlan Hagen, who received a majority vote on both the Republican and Democrat ballots. Tulare county Republicans gave Hagen's opponent, John Philip Bentley, of Bakersfield, an edge for the Republican nomination, 7,332 to 7,028.

Democrats had a strong margin in the Attorney General race, with

Stanley Mosk (D) polling the greatest popular vote, while the Republican state nominee, Patrick J. Hillings, was beaten in Tulare county by another Republican, Caspar Weinberger. Popular vote for all Democrats in this race was 21,016 compared to 12,621 for all Republicans.

In the Tulare-Kings counties Assembly race, Incumbent Myron Frew (D) polled an 8,961 popular vote, majority over Ralph Jordan (R).

Voters of Tulare county gave popular majority votes to Harold J. "Butch" Powers (R) over Glenn M. Andeson (D), for California lieutenant governor; Frank Jordan (R) over Henry P. Lopez (D), for secretary of state; Robert Kirkwood (R) over Alan Cranston (D), for state controller; Ronald Button (R) over Bert A. Betts (D), for state treasurer, and John H. Quinn (R) over John W. Lynch (D), for state board of equalization.

In the State Senate race for the Tulare county seat, Incumbent J. Howard Williams (R) polled a popular vote majority of 7,145 over his opponent Joseph L. Soares (D):

THOMAS PRICE LOYD, BORN ON OLD RESERVATION, IS TAKEN BY DEATH

PORTERVILLE, Aug. 7 — One of Porterville's real pioneers — Thomas Price Loyd — died Tuesday at his home at Burbank, with funeral service to be held Saturday, 2:30 p.m., at the Echerman Funeral home in Burbank.

Mr. Loyd was born in the adobe

building on the old Tule River Indian reservation in the present Alta Vista district in 1871; in the early days of Porterville, he operated a lively stable at the corner of what is now Putnam and Second, where Bice Motors is located.

He was the last remaining son of the late Mr. and Mrs. John W. Loyd; preceding him in death were his brothers and sisters: Ozzie Loyd, Minnie E. Carpenter, Edgar W. Loyd, Webb Loyd and Carl Loyd.

COUNTY DELEGATES AT REPUBLICAN MEET

PORTERVILLE, Aug. 7 — Attending the Republican convention and state central committee meeting held over the past weekend in Sacramento were: Mr. and Mrs. Edgar Prestage, Art Falconer, Eleanor Jones and Bill Rodgers, of Porterville; Florence Doe and Nat Bradley, Visalia; Henry Picher, Orange Cove; Mr. and Mrs. Jay Tod, Lemon Cove, and Mr. and Mrs. Harry Davis, Exeter.

Fifth National Watershed congress will be held September 29 - October 1 at the Statler-Hilton hotel in Dallas, Texas.

We Only Heard By BILL RODGERS

CITRUS IS in the news at the moment, what with the Merchants' committee of the Porterville chamber of commerce listening to a suggestion that orange trees be planted along Porterville's Main street, and a further what with ripe citrus being placed in the Tulare County Fair's premium list this year.

CONCERNING THE first item — citrus trees on Main street — we don't know whether someone is serious about it, or whether the boys and girls at the coffee counters are just livening up the summer conversation. Certainly, Porterville would gain fame, if not fortune, if its Main street was lined with orange trees; the only town in America where oranges are free for the picking; the problem of Christmas decorations solved nicely by oranges on orange trees . . . Serious or not, the matter has been referred to the Garden club for a report as to possibilities and problems.

SECOND ITEM, the fresh citrus section in the 1958 Tulare County fair, should add new confusion to the fair, since the fruit is to be this year's crop, which, to be available in September, would require some fine and fancy storage . . . We might suggest that the first thing that judges of ripe citrus should be schooled in is how to tell the Tulare county product from a ripe import from southern California.

MAYBE IT'S the hot weather, but as yet, no group and no individuals are showing much interest in the Butterfield Stage Centennial. The caravan that will travel the route of the old Butterfield stage will hit Porterville in October, enroute from Tipton, Missouri to San Francisco, and since the original stages stopped at the Tule River station a hundred years ago, it is fitting that the 1958 caravan plan an overnight Corral in Porterville, with an appropriate program . . . Everyone thinks it's a good idea; no one, so far, has volunteered to work on, let alone head up an arrangements committee . . . Seems like the Native Sons and Daughters, or members of the county historical society should jump right into this one; after all, the Butterfield Centennial caravan could form the focal point for a real historical wingding . . . How about checking with Allan Coates at the Porterville chamber of commerce. He's looking for help on this one.

State Archers Will Shoot On New Range In Pot-O-Gold Event In Porterville August 16 Weekend

PORTERVILLE, Aug. 7 — Some of California's most noted archers are expected in Porterville August 16 and 17 to participate in annual Pot-O-Gold shoot that will be staged by the Porterville Archers at the new range along the Tule river in the area just below the Success dam location.

Cal Potts, club president, says that from 250 to 300 visiting archers are expected to compete, with 56 targets to be shot for qualification Saturday.

Shooting Sunday will be by classification, with some 65 prizes offered. In addition, a novelty shoot, with 14 targets using the theme, TV Daze, and designed from TV programs, is scheduled for Sunday; cash prizes will be offered for winners in this event.

Sunday morning, at sunup, a flight shoot will be held at the Porterville Municipal airport, with men and women competing in an open flight and a broad head flight.

Food will be served on the range

GUTHRIE RESIGNS FROM EDUCATION BOARD

PORTERVILLE, Aug. 7 — John Guthrie, White River cattlemen, has resigned from the Tulare County board of education, representing District No. 6, giving ill health as his reason.

It is expected that his successor will be appointed at a meeting of the county board on August 20. D. R. Lightner, chairman of the board, states that school trustees and school district officials in the area that Guthrie represented will be contacted relative to the new appointee.

Porterville

(Continued from Page 1)

Basis of judging will be: Educational value, 30 per cent; quality, 30 per cent; decoration, lighting and arrangement, 20 per cent; exhibit theme, 25 per cent, and variety of products, five per cent.

As is the usual situation, there is a great degree of secrecy about the Porterville booth theme, and plans, since community competition at the county fair has become a "no holds barred" type of operation.
